[1] rfrogner:  
Another EAD container element.

[2] rfrogner:  
Either formal or supplied title is required. If supplied, title must be based on content and identified in separate paragraph of Scope and Content. See RAD (Ch. 1.1) for format. The <unit title> element is comparable to ISAD(G) element 3.1.2 and MARC field 245.

[3] rfrogner:  
See RAD (Ch. 1.7) for Scope and Content details. Title of field matches EAD v. 2.0. The <scope content> element is comparable to ISAD(G) data element 3.3.1 and MARC field 520.

[4] rfrogner:  
Outside dates when material was used. Discrete from creation of records. See RAD (Ch. 1.4) for format. See also EAD unit date tag information: <http://www.loc.gov/ead/tglib/elements/unitdate.html>

[5] rfrogner:  
Physical description. See RAD (Ch. 1.5 and Ch. 3.5) for format. The EAD <physdesc> element is comparable to ISAD(G) data element 3.1.5 and MARC field 300. This will accommodate RAD by including information for the 'physdesc' subelement 'extent.' See EAD tag: <http://www.loc.gov/ead/tglib/elements/physdesc.html>. If necessary/possible, include comment on form, type, genre, dimension, colour, or method of creation.
